- 3rd year Co-op Specialist in Software Engineering and Major in Mathematics; cGPA: 3.92/4.0
- Designated a U of T Scholar (Sept 2018) and named to Dean's List (Nov 2019, Sept 2020)
- Received scholarship values of \$7,500 (Sept 2018) and \$3,000 (Sept 2019)

Work Experience

Data Scientist Co-op | *TELUS Communications, Toronto* January 2020 – August 2020

- Joined an agile team of developers focused on data analytics and automation for TELUS Procurement
- Organized and presented in bi-weekly presentations showcasing the team's current and new projects
- Developed a code library in Confluence on fundamentals of programming in Python for beginners
- Created Python scripts to automate financial data reporting

Projects

Doodle Jump November 2020 – December 2020

- Implemented the game "Doodle Jump" from scratch using MIPS Assembly

t-cao19.github.io September 2020 - Present

- Technologies involved included Angular, TypeScript/JavaScript and HTML/CSS
- Designed and implemented a portfolio webpage using Angular that is adapted for all screen sizes to showcase achievements and accomplishments

Find Dining Scarborough Web Platform | *Winning Project - City of Toronto* June 2020 – August 2020

- Technologies involved included Angular, TypeScript/JavaScript and HTML/CSS
- Selected by the City of Toronto as winning project out of 4 other software engineer student groups
- Worked in a team of 5 as a front-end developer and project coordinator
- Developed a food ordering web platform specific for the Scarborough community to highlight their culinary backgrounds and stories by implementing pages that showcased owner profiles

Pineapple eCommerce Mobile Application November – December 2019

- Technologies involved included Java, SQLite and Android Studio
- Worked in a team of four as the project manager (keeping track of deadlines and meetings)
- Developed an Android application written in Java using design principles that simulated an online commercial store using databases to store customers' accounts and purchases

Extracurricular Activities

Student Mentor | *Co-op Student Association – University of Toronto* September 2020 - Present

- Provided mentor support for first-year students entering the Co-Op program or first-time seekers with activities such as resume and interview prep, workplace experience and the Co-Op journey
